

Kindy Korner Children Services

Our Philosophy

We thank the Wodi Wodi people for sharing their land. We respect and acknowledge their spiritual relationship with this land on which we play and learn every day. We promise to look after Dharawal country, its animals, and people too.

Kindy Korner Children Services, provides a warm and inviting environment for our children, families and members of the wider community. We believe that positive, nurturing relationships create a strong sense of belonging for children, families and the wider community.

"I'm home" - Otis and Yvonne C

"Kindy Korner is a safe and educational environment in which children feel their peers and educators are an extension of their family" - Rhiannon N

"We have been very impressed with how happy and welcoming the staff are each morning" - James W

Our child safe organisation prioritises the safety and wellbeing of each child. We strongly advocate and promote a culture of safety, security and believe that all children have the right to be heard. We strive to protect children from harm, respect their dignity and safeguard their wellbeing by embracing a shared commitment to child safety, protection, and welfare.

Our service believes that all children are competent and capable learners, we embrace inclusiveness within our play-based curriculum and provide children with the freedom of choice which is strongly supported by our indoor/outdoor program. We offer a wide variety of age-appropriate learning opportunities and a range of easily accessible resources, as we believe this supports children to learn about the world around them as they investigate, experiment, collaborate and learn at their own pace.

We believe children gain a positive self-identify when they are given the opportunity to learn and explore within a familiar, warm and inviting setting. Our indoor environment is welcoming and reflective of our children and families. We believe in displaying the children's creative artwork as it instils a strong sense of being, belonging and becoming.

Educators recognise children's desire to be connected to the outdoor environment and plan for experiences that allow children to connect with nature even in inclement weather. We believe that outdoor play is of vital importance in a child's development, as it allows children the opportunity to explore and learn using their five senses as well as gain a respect for nature and the natural environment.

"I like painting with lots of colours" - Blair

"I like the worms and it's fun to give them bananas"- Ollie M

Educators allow opportunities for children to learn new skills and work through things at their own pace which has instilled a sense of patience and understanding. Educators celebrate children's play discoveries and value spontaneous learning experiences as this allows for intentional teaching moments that are deliberate and meaningful.

"Taj comes home every week from Kindy Korner and has learnt something new" - Tayla I

Our service appreciates that families are the most significant teachers in a child's life. We value the connection between the home environment and our learning community. Our friendly partnerships with families allow us to share a vision and support the development of best possible outcomes for children.

"Kindy Korner staff are excellent communicators and accessible to support parents and families" - Jed W

We believe in promoting inclusiveness for all children, families and community members. We celebrate the differences that each family brings to our learning environment and encourage families to share their thoughts, ideas values and beliefs. We understand that these connections are essential in creating a sense of belonging and social connectedness to the local community.

"You include families and children in the planning of special events and I love the opportunities you provide families to connect with one another" - Michael E
